

TECNOLÓGICO
DE MONTERREY®

HAVE A PRACTICAL EXPERIENCE ABROAD

"I had the opportunity to discover my own professional skills at work before getting my degree"

Mechanical Engineering
Student working at
GE Industrial Systems.

"Dealing with people of different levels in the organization from shop floor workers to the CEO was a great learning experience"

Industrial and Systems Engineering
Student working at
VITRO.

"I learned how to apply theory into real life applications"

Chemical Engineering
Student working at
CEMEX.

Sixty years ago a group of business leaders founded TECNOLÓGICO DE MONTERREY, since then there has been a close relationship with national and international Companies that allow our student to work and develop projects related to their professional fields.
