

Lasting solutions to strengthen a community's future... BE A PART OF IT.

At CDM, we look for new and sustainable approaches to restoring and managing urban environments and infrastructure and balancing environmental values, quality of life, and economic opportunities in communities. We build lasting client relationships and solve challenges by hiring smart thinkers. Go-getters. Team players. We seek talented and motivated **co-op and intern students** in the following disciplines:

- Air Quality Engineers/Scientists
- Architects
- Aviation Engineers
- Aviation Planners
- Chemical Engineers
- Civil Engineers
- Construction Engineers
- Construction Managers
- Electrical Engineers
- Environmental Scientists
- Geologists/Hydrogeologists
- Geotechnical Engineers
- GIS/Information Management Specialists
- Instrumentation & Control Systems Engineers
- Management Consultants
- Mechanical Engineers
- Planners
- Project Controls Specialists
- Structural Engineers
- Transportation Engineers
- Water Resources Engineers

CDM is a consulting, engineering, construction, and operations firm delivering exceptional service to public and private clients worldwide.
