

CREATING
innovative solutions.

BUILDING
rewarding careers.

At Grace Performance Chemicals, we've built a solid reputation for consistently developing innovative solutions to a wide range of challenges. Our Grace Construction Products business unit has tackled towering building challenges in some of the world's most important structures. Our Grace Darex Packaging Technologies group has revolutionized the container industry with advanced can sealants and closure coating systems. In the process, we've created some exceptional career opportunities. At Grace, you'll be part of a world-class team committed to making a difference. You'll have the depth of resources to help create, market and support the next generation of products. And you'll have the breadth of opportunities to build a rewarding career with a global leader.
