

Taking the **expected** out of **expectations.**

At Gulfstream, our designs reach far beyond the expected to the truly unimaginable – and this visionary philosophy is what has made us the industry leader. We have high expectations of ourselves, and those expectations translate into valuable experience for students who choose to join our College Co-op Program. As we continue to redefine The World Standard® in business aviation year after year, we invite you to explore what Gulfstream has to offer.

Join our companywide team that designs, develops, builds and maintains business jets that set the industry standard in performance, safety, reliability and comfort.

We take care of our co-ops. Gulfstream provides subsidized housing for students who live more than 70 miles away from the Savannah, Ga., site. They're paid for holidays and personal time on a pro-rated basis and accumulate service time for the time spent working as a co-op. Gulfstream offers life insurance and the opportunity to participate in a 401"K" plan.

At Gulfstream, diversity matters.

Our diverse workforce, located at 12 facilities, represents many career fields, including Engineering, Manufacturing, Information Technology, Materials, Completions, Aircraft Services, Finance, Marketing and Human Resources.

Throughout the world, our employees design, build and maintain the world's premier business aircraft. We manufacture the components, outfit the interiors, service the jets and perform every other task necessary to ensure Gulfstream remains the top company in corporate aviation.
